

THE CAMPAIGN FOR INLY

## Middle School Transformation Project

We have an exciting opportunity to reimagine a Middle School exclusively designed for our innovative program. While still creating a welcoming and home-like environment, this new plan will be vastly more functional for our faculty and students. With larger spaces to accommodate dynamic learning experiences, the building is designed to take innovation and experiential learning to new heights.

### Key Features:

- Amphitheater with stadium seating
- Innovation and project studio
- Writing Center
- Student Lounge with fireplace
- Outdoor Classroom
- In Residence Studio

The Middle School facility will be designed to reflect Inly's unique blend of Montessori+ principles and innovative practices, encouraging independence, collaboration, and exploration. This transformational education will inspire a new generation of leaders who will approach challenges with curiosity and resilience.
